CONGRATULATIONS on being accepted to study in Scotland! Living and studying in a foreign culture is both an exciting and a challenging experience. Past participants of study abroad report that the many advantages of international study include:

- Building upon existing foreign language skills
- Gaining new perspectives on a chosen academic field
- Increasing understanding of different cultures
- Enhancing personal development
- Developing different perspectives on U.S. culture
- Gaining self-confidence and independence
- Learning skills for the future international job market

It is up to you to determine how you can best benefit from these possible advantages. This is your adventure!

This program guide is to be used together with the online Study Abroad Handbook. The handbook has information that is valid for all study abroad programs. This guide will provide you with specific information for Scotland and your Scottish university. It is designed to complement the handbook, study abroad orientation, and your individual pre-departure preparations.

All of the information available at the time of publication has been used, it is impossible for any single resource to answer all of your questions. Your peer adviser will email additional information throughout the semester. We strongly encourage you to contact your peer adviser, the Center for International Education (CIE) staff, past program participants, and Scottish students on campus with your specific questions. Also make use of the written and web resources listed towards the end of this guide.

Basic questions only **you** can answer include:

1) What are **YOUR** goals for this experience? Common objectives of student travelers include advancement in a future profession, desire to expand personal and academic horizons, need for a change, and a wish to challenge oneself with immersion in a new culture; and advancing language skills.

2) Given the way the program is set up; how can you best prepare to meet your goals? For example, if one of your goals is truly being immersed in Scottish culture, how can you ensure that you do not spend too much time with other Americans or international students on your Scottish campus?

The information in this guide was current at the time of publication, though changes may occur at any time.
**GENERAL INFORMATION**

*The Program*

The University of Wisconsin-Eau Claire has relationships with three universities in Scotland: University of Aberdeen, University of Glasgow, and University of Stirling.

As a UW-Eau Claire student, you may choose to study for a semester or an academic year at any of the three Scottish universities. You can also study for the summer in Stirling. You will live in the residence halls and take classes with Scottish students taught by Scottish professors. It will be a true immersion into Scottish university culture.

As you see, this program involves many different campuses and term options. Because each of these campuses sets its own policies regarding everything from academics to housing, and because the policies may change at any time without prior notice to the CIE at UW-Eau Claire, it is CRITICAL that you read all email or regular mail correspondence from your Scottish campus promptly and carefully, and that you forward the correspondence to Cheryl Lochner-Wright (lochnecb@uwec.edu), the Study Abroad Coordinator for the Scotland programs, with questions if there is anything you do not understand.

*The Locations*

**Aberdeen:** Aberdeen is a thriving city of 220,000 mid-way up the east coast of Scotland. With excellent museums, great concert venues, and a vibrant nightlife, the city offers something for everyone. Its location, on the coast at the confluence of two rivers and near the Cairngorm Mountains, guarantees both spectacular scenery and incredible opportunities for those who love the outdoors.

**Glasgow:** With a population of nearly 600,000, Glasgow is Scotland's largest city. Whether your interest is art, architecture, nightlife, shopping, or sports, you'll find it in Glasgow. With nearly 80 parks, it's also possible to find green spaces in the midst of the bustle of city life.

**Stirling:** The city of Stirling is a 10-minute bus ride from campus. With a population of around 45,000, the city offers a warm community and is within easy reach of both Glasgow (50 minutes by train) and Edinburgh (25 minutes by train).

*The Universities*

**The University of Aberdeen**

Founded in 1495, the University of Aberdeen is the third oldest university in Scotland and the fifth oldest in the U.K. With a student population of 13,000, Aberdeen offers nearly 90 majors in three colleges: Medical & Life Sciences, Physical Sciences, and Arts & Social Sciences. You can find complete information at http://www.abdn.ac.uk/study/international/.

University of Aberdeen had pre-departure information available at http://www.abdn.ac.uk/study/international/pre-departure-information.php. They offer videos, online webinars, Facebook, and old-fashioned print materials to help you prepare for your time at Aberdeen.

**The University of Glasgow**

The University of Glasgow is one of the oldest and most prestigious research universities in the UK. It is also one of the largest, with a student
population approaching 20,000. An urban campus with buildings scattered throughout the West End of Glasgow, the University offers nearly 100 majors to choose from. Complete details are at http://www.gla.ac.uk/.

The University of Glasgow International Student Handbook 2016-2017 is available at http://www.gla.ac.uk/international/support/before/handbook/. Please read it for more details about studying in Glasgow.

The University of Stirling
With a student population of 9,000, the University of Stirling is known for programs in communication & media studies, English, environmental science, social work, and sociology. Built in the rolling hills of a former estate, the Stirling campus boasts a friendly atmosphere and an active student life, with a large percentage of students living on campus and many opportunities for student involvement. You can learn more about the University of Stirling by visiting their website: http://www.stir.ac.uk/.

You may also want to consult the University of Stirling the “Incoming exchange and study abroad students” page at: http://www.stir.ac.uk/study-abroad-exchanges/

Scroll down to find the “Student Handbook for Study Abroad” and other helpful pre-arrival information.

Academic Calendars
In Fall 2017, UWEC will have students studying at Stirling. See the tentative academic calendar in the next column. Do not make your flight arrangements until you receive confirmation of your acceptance and the final, confirmed dates from the Scottish university.

Stirling: The Stirling academic calendar is divided into two equal semesters. Autumn runs from September to mid-December. Spring semester runs from mid-January to the end of May, including a one-week spring break.

Stirling Fall 2017 (Tentative)

*This does not mean that your flight has to arrive after 10 am. It will take you a few hours to get from your arrival airport to Stirling.

Academics
There is additional information on academic topics such as registration, class attendance, credits and course load, petitioning course equivalencies, grades, transcripts, and accessing the UW-Eau Claire library while abroad in your Study Abroad Handbook.

Program Prerequisites
To participate in the program, you must have a 3.00 GPA and be in good academic, conduct, and financial standing. The CIE will check your grades at the end of the semester prior to departure. If you are on warning or probation, we will need to check with your host institution to see if you will be allowed to participate. If you have been suspended, you will not be allowed to participate in the program.
Semester Pre-Departure Planning
A planning form for your Scottish university (e.g. “Stirling Academic Planning and Course Equivalencies”) is posted on the Academics Page of the respective CIE program website. You can use this information to plan for your semester in Scotland and complete the module (course) interest section of the application for your host university.

The CIE will ask the Admissions Office to evaluate any courses listed on your application that do not have UW-Eau Claire equivalencies. Equivalencies will be posted on the Transfer Wizard as they are evaluated.

Course Equivalencies
To find courses that have been evaluated for your institution, go to the Transfer Credit Wizard site:
https://my.uwec.edu/psp/PUBLIC/EMPLOYEE/HRMS/c/EAU_SS_CUSTOM.EAU_TRNCRD_WZ.GBL. Choose "United Kingdom" from the “Country” pull down menu, then hit “Search.” Then select the university that you will be attending by clicking the link. You will need to look up the equivalencies by using the host institution course number or subject area.

If a course appears on the list, it has already been reviewed by the appropriate UW-Eau Claire department chair and the equivalency listed is what you will receive upon successful completion of the course. (Please note that catalog changes at either university may change a previously established equivalency. Examples of such changes would be a change in course title, number, or description; dropping a course at one institution; etc.)

Keep in mind that this is a historical record of past course equivalencies. There is no guarantee that the same courses will be offered in the future, or that they will be offered during the term you are abroad.

Graduate Courses
Some students have expressed an interest in taking graduate courses abroad. In particular, students going to the U of Glasgow have inquired about this possibility. Although your host institution faculty adviser may not have a problem with you taking graduate courses, UW-Eau Claire does. You will not be granted credit for graduate courses taken abroad unless your host institution allows the graduate course to count toward their home campus undergraduate degree.

Stirling Credits & Course Load
Most University of Stirling courses are worth 5 U.S. credits. Typically, you must take three classes (15 credits) per semester. However, there are a few “half modules” that are equal to 2.5 U.S. credits, in which case you could take either 12.5 U.S. credits or 15 credits per semester.

Registration at UW-Eau Claire
Do not register for classes at UW-Eau Claire for the semester you will be abroad. The semester before your program departs, CIE staff will work with the Registration Office to enroll you in a temporary course number (INTA or INTX) for 12 credits. This temporary registration for 12 credits will appear on your billing statements. You do not need to complete any other registration at UW-Eau Claire. Once the transcript from your host university arrives, your classes, credits, and grades from Scotland will be posted on your UW-Eau Claire transcript. The INTA or INTX
Registration in Scotland
Regardless of which university you are attending in Scotland, you should have a plan about what you will take abroad and how it will transfer back to UW-Eau Claire.

At Stirling: You indicated on your U of Stirling application which courses you would like to take. In your official offer letter from the U of Stirling, you will receive a list of modules that you have been approved to take. You will need to select your top three module choices and one reserve module and return the form to the U of Stirling. You will be pre-approved to register for these classes by the International Office at the U of Stirling, based on the course information you listed on your offer reply/acceptance form.

You will also be asked to complete a four-step, online “Discover Process” via your online Stirling account. Please follow the directions for completing the online enrollment forms. These forms must be completed BEFORE you will be allowed to apply for housing.

Upon arrival, you will be assigned an Adviser of Studies. You must set up a meeting with your adviser during the first week of the semester to discuss your registration. You may make changes to your registration during the first two weeks of the semester, provided space is available in the classes you wish to take. All changes must be approved by your Adviser of Studies, and you must report them to the Student Matriculation and Records Office.

For All Students:
As soon as you are registered for classes in Scotland, please complete the course questionnaire in your online UWEC study abroad account for all courses that you are taking that have not been evaluated. You will be asked to include the course title, course number, course description (just cut-and-paste from the on-line catalog) and number of credits for each of the classes you are taking.

If no UW-Eau Claire equivalency has been determined for a class that you registered for, Cheryl Lochner-Wright will contact the Admission Office for an equivalency and let you know what it is. Note that the equivalency is determined by the chair of the appropriate department, and that the process of determining an equivalency can take three to four weeks. Because of the time involved, department chairs will only evaluate courses students are actually taking abroad. In other words, you will not be able to have equivalencies established for three or four courses so that you can choose which one you wish to take.

British/Scottish Academic System
Expectation of independent learning:
Returned students most often describe academic life at the UK as “different.” They go on to explain that while they didn’t find classes there more or less difficult than classes at home, they definitely did need to adjust to a new way of teaching and learning.

From a British perspective, it is hard to understand the teaching and assessment methods used in U.S. higher education, with lots
of direction from the professors, many small, graded assignments, and the general "checking up" to be certain that students are learning the assigned materials. **This is how British students learn in high school.** Once they enter university, they are expected to take responsibility for their own education.

**Class meetings and schedule:** Most classes meet once per week for either a three-hour lecture or two to three hours with a mixture of lecture and tutorial. For the lecture and tutorial, both sections are taught by the same professor (known as a lecturer in the British system). Given that the course load is 3-5 courses per term, you may find yourself spending only 12-15 hours in class per week depending on your schedule. Past peer adviser tip: “Classes are usually 3 hours a week, 2 hours of lecture and 1 tutorial. Lectures are at set times but you can choose which tutorial you would like to take from a list of times. Your classes will be with a mixture of Scottish and other international students.”

**Lectures:** Like in the U.S., the lecture is a traditional method of teaching that allows lecturers to pass important information to a large number of students. However, lectures in the UK may offer less opportunity for students to ask questions, since students are expected to ask questions and discuss the topic in the tutorial. Also, lectures in the UK are not intended to tell you everything you need to know for the test or assignment. Instead the lectures might provide an overview to allow you to place your course material or readings in context or to focus on a difficult concept or theory. **To take the best advantage of lectures, you should keep up with course reading and come to lecture prepared. By being prepared for lecture, you will be able to engage and ask questions in the tutorials.**

**Tutorials/Seminars:** Tutorials, or seminars as they are also called, are NOT mini-lectures. Instead, tutorials are active learning opportunities where the professor and your fellow students meet regular to discuss the material being covered in lecture and the reading that you are doing outside of class. For tutorials to be effective, they require active student participation. This means you:
- must have read assigned work and suggested sources in advance,
- should be prepared to contribute to the discussion,
- made note of any difficult concepts or points from lecture or your readings that you do not understand, and
- should be willing to raise issues for discussion.

Tutorials are not optional. Attendance is kept and absences are noted. One benefit of tutorials is that they allow for closer professor/student relationships than are typically found at the undergraduate level in the U.S.

**Advance planning and independent learning:** With only 12-15 hours of class time per week, you may think your time in Scotland will be an academic vacation. This is definitely not the case. Much of the emphasis is placed on private study. Keep in mind that in the British system, students do not say they are "studying" history, for example. They say they are "reading" history. And that is precisely what students are expected to do: read! As one student said, "You will probably spend a lot less time in class than you are used to, but in exchange, you are expected to do a lot more independent work!"
Upon beginning a class, you will likely be given a (very) long reading list. This is not a required reading list; it is a list of suggested readings that will expand your knowledge of the subject area. What you actually read from the list is mostly left up to you. **If you are told that “You may wish to look at these specific titles,” take that as a strong hint to read those books.** You should also browse through several of the others and choose two or three to read carefully. These readings will form the basis of your contributions to tutorial discussions, as well as for the essays that serve as assessment for the module.

**Differences in assignments and exams:**
Unlike in the U.S. system, you will rarely find a lecturer who makes short, weekly assignments. During the semester, you may have to give a few *tutorial/seminar presentations*, typically a group assignment where you and two or three other students need to prepare a short presentation about the week's topic in order to facilitate discussion.

In some courses, you may not hand in any work until the last few weeks of the term. At this point, you will probably be asked to hand in essays or papers, which will range in length from 5-15 pages. You often receive the essay questions with your syllabus at the beginning of the semester. **Start writing early!**

The essays give you the opportunity to 1) show the lecturer that you have done some of the course reading, and 2) show the lecturer that you have critically thought about the material you have read. Generally speaking, you will be expected to present an original idea, or discuss opposing ideas, and **come to your own conclusion**. Demonstration of clear thought and argumentation are as critical as backing up your arguments with knowledgeable sources. You may also take a final exam in essay format.

In case you’re worried, take this advice from a former peer adviser: “*Don't be afraid to email them or go to office hours! I often went to office hours to get input on essay outlines!*”

**Participation points:** Another difference is that there are no “participation points” in the UK. You may be penalized for not attending but you will not earn points just for coming to class or participating, as that is a basic expectation for all students.

**Student services:** Another difference to note is that "*student services*" are a relatively newer concept in British universities than in the U.S. The university is there to provide access to academic resources. There are some student support units. However, universities do not have the mission, common to most U.S. institutions, of “student development.” University students are considered adults who will work their way through the system, asking questions when necessary. As a newcomer to the system and the culture, you may need to ask questions often!

**Books**
The main thing to remember is that there usually is not one specific text. Students are given reading lists and are free to choose any of them to prepare for class and/or to write the essay or exam. The only exceptions are literature classes. Students often share books with other students or check them out from the library. **Past students have suggested getting to the library early in the semester as many books**
on the list will be checked out from the library if you wait too long.

**Attendance**
You are expected to attend all teaching sessions (e.g. lectures and tutorials), as material covered in these sessions forms the basis for your understanding of the subject. Please note that your different departments/faculty may have specific attendance requirements and penalties over and above the general university guidelines. If you are in doubt about the attendance policy for your module/course, please consult your professor.

**Grades**
The grade conversion scale for the University of Stirling follows:

<table>
<thead>
<tr>
<th>Stirling Grade</th>
<th>UWEC Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>67-77</td>
<td>A</td>
</tr>
<tr>
<td>64-66</td>

<tr>
<td>44-46</td>
<td>C-</td>
</tr>
<tr>
<td>40-43</td>
<td>D+</td>
</tr>
<tr>
<td>Below 40</td>
<td></td>
</tr>
</tbody>
</table>

**Transcripts & Graduation**
Your host university will send a transcript for your time abroad to UW-Eau Claire. **Transcripts are not available until two or three months after the end of the semester.** Due to this delay, you will initially receive a grade report with “NR” (not reported) for all courses. A revised transcript will be issued after the grades have arrived.

If you are a senior and are studying abroad for your last semester, please note that the different timelines in grade reporting will most likely require you to delay your graduation from fall to spring or from spring to summer. The UW-Eau Claire Blugold Central-Registrar must receive grades within 42 days of the last day of the UW-Eau Claire semester in order to confirm your graduation that semester. This is a UW-Eau Claire requirement, and our partners abroad cannot change their usual timelines to accommodate it.

**Service-Learning**
See additional information on Service-Learning in your Study Abroad Handbook.

Given that you will most likely spend fewer hours in the classroom in Scotland than UW-Eau Claire, you may find your term abroad an ideal time to complete some service-learning. However, to have this option, you must do the following **before you leave the US:**

**Apply For A Tier IV Student Visa**
See the Learning Content “Visa Information: UK” in your online study abroad account for details.

**Have A Criminal Background Check**
Volunteer work with vulnerable populations (i.e. children, the elderly, people with disabilities, etc.) will require a criminal background check. Like in the U.S., the UK has experienced some tragic incidents where people with criminal backgrounds have victimized vulnerable people. The result: a required criminal background check of all volunteers. You can apply for a criminal background check through the State of Wisconsin Department of Justice.
You must apply for and receive your background check before you depart for the UK. Once you receive your letter, put it in a safe place and bring it with you. You will ultimately share it with the volunteer site coordinator.

Remember to submit your service-learning forms online before you begin your project! (www.uwec.edu/SL)

**Money Matters**

*Information about how payments are made, when they are due, the UW-Eau Claire withdrawal/refund deadlines, financial aid, scholarships, budgeting and ways to bring money abroad is in your Study Abroad Handbook.*

**Cost Estimate**

You can find the most current Cost Estimate for your program, in easily printable format, on the CIE Stirling webpage.

Be sure you are looking at the correct term. Remember that the cost estimate includes what you pay to UW-Eau Claire, what you pay to your host university, and what you pay directly to other vendors.

**Exchange Option**

In Fall 2017, Stirling participants will be participating in the exchange option. On a tuition only exchange program, each participant pays the costs they would normally pay at their home school – so Eau Claire students pay UW-Eau Claire costs, and Scottish students cover tuition costs at their respective university, and they switch places. Students pay the host institution for their housing.

*No money is exchanged between the schools, and there is no direct monetary correlation between what you pay in Eau Claire and what you receive in Scotland.* What is exchanged is not actual payment, but rather benefits. You should receive the same benefits a typical Stirling student receives, and the Scottish student receives the benefits a typical Eau Claire student receives. This type of arrangement allows students to participate in overseas programs at a cost similar to what they would pay to attend their home university.

**Personal Travel**

Past participants who responded to our money survey spent between $1,000 and $3,000 on personal travel. To give you a sense of what you can do for these amounts:

- $1,000: *Not much – I traveled a couple of weekends during my time abroad.*
- $2,000: *A moderate amount – I traveled about every other weekend.*
- $3,000: *A lot – I traveled almost every weekend.*

Personal travel depends on your budget and your priorities. Students who want to be involved in their host community generally spend less time (and money) traveling. Others travel every weekend with correspondingly high costs and fewer close connections in their new home.
Currency and Currency Exchange

The currency of the United Kingdom is the pound, abbreviated GBP (Great Britain Pound) and symbolized “£.” Just like the dollar, the pound is divided into 100 units, called “pence,” abbreviated “p.” Coins come in denominations of 1, 2, 5, 10, 20, and 50 pence, as well as 1 and 2 pounds. There are £5, £10, £20, and £50 bills.

Scottish banks print their own versions of the pound, commonly referred to as “Scottish notes.” Scottish notes can be used in all parts of the United Kingdom although a small number of students have reported trouble using Scottish notes in England. You can avoid this problem by simply withdrawing money after you arrive at your destination in England.

The exchange rate as of January 2016 is 1 GBP = 1.24 USD. You can find current exchange rates at http://www.oanda.com/currency/converter/.

Bank Accounts

For yearlong students, it may take up to three weeks to open a UK bank account, so be prepared with cash, debit/credit cards, and/or travelers checks until then. Students studying in the UK for six months or less are not allowed to open an account.

Travelers Checks

Many people no longer find travelers checks useful in the UK due to the convenience of ATMs and the service fees (1-4%) associated with cashing your travelers checks. Also, you will need to go to a bank or a money exchange office (e.g. bureaux de change) in order to cash travelers checks, which can be inconvenient. However, travelers checks are useful in an emergency situation such as when your credit or debit cards are lost or stolen, your cards are damaged, or your cards are deactivated due to fraud concerns, etc.

MONEY ABROAD

In addition to the information about bringing money abroad in the Study Abroad Handbook, past participants report the following about the UK.

Funds upon Arrival

The university recommends that you arrive in the UK with approximately £200-£250 in British currency, more if you are traveling by taxis and other public transport. Do not carry any more than this in case it gets lost. It is also advisable to bring some travelers checks with you for emergencies; they can be cashed at airport “bureaux de change” offices and in banks. You can also withdraw money from ATMs using your credit or debit card.

SCHOLARSHIPS

In addition to the scholarship & financial aid information listed in your Study Abroad Handbook, there is one scholarship available specifically for study in the UK.

BUTEX North American Scholarship Programme

The British Universities Transatlantic Exchange Association (BUTEX) has a North American Scholarship Programme open to all undergraduate students currently registered at an institution in the United States or Canada. To be eligible to apply, you must have been offered a study abroad or exchange place at a U.K. university with BUTEX membership for a minimum of one semester. The Universities of Aberdeen, Glasgow and Stirling are all
HEALTH & SAFETY
In addition to the general information in the Study Abroad Handbook, you should be aware of the following health & safety information specific to the UK.

On-Campus Medical & Counseling Services
Stirling offers a range of on-campus student support services; you can find details here: http://www.stir.ac.uk/campus-life/support-and-wellbeing/ Additional information on campus medical and counseling services will be covered during on-site orientation at your host university in Scotland. You are welcome to contact Cheryl Lochner-Wright, the Scotland program coordinator, at lochnebc@uwec.edu with any questions you may have about on-campus medical and counseling services before you leave.

Intro to the British Health System
You may be aware that the British health system does not have a very good reputation in the U.S. The system is actually very good; however, it operates under a different set of assumptions from the U.S. health system. U.S. students and their parents need to be aware of some of the major differences between the U.S. and British health systems.

1) The British system is set up to favor those typically most in need of medical treatment: infants/children, pregnant women, and the elderly. People in the traditional university age range are expected to be low users of the health system except in the case of accidents or serious illness.

2) In Britain, medical professionals do not consider a common cold/sore throat to require medical attention. Being sick with a cold for three or four days is considered normal and of no major concern in a person of college age.

3) Antibiotics are rarely prescribed in Britain. British doctors point to research that shows frequent use of antibiotics leads to mutation in germs, rendering the antibiotics useless. Antibiotics are therefore used to treat severe illness. If you use antibiotics regularly, you may wish to bring them with you.

Past peer adviser tip: “Register with a doctor as soon as you arrive. That way if you do fall ill you will be able to get an appointment straight away! Both Aberdeen and Glasgow have doctor’s offices (you may hear them called GP surgeries) just a 5-minute walk from campus. Find more information at: http://www.nhsinform.co.uk/rights/usingnhs/access/overseas-visitors/students/.”

Prescriptions-Allergy Shots
Please note that allergy shots are generally not recommended by physicians in the UK and it will be difficult to find anyone who will prescribe or administer them.

Vaccinations
The Centers for Disease Control recommends that you are up-to-date on routine vaccines before your study abroad experience. These vaccines include measles-mumps-rubella (MMR) vaccine, diphtheria-tetanus-pertussis vaccine, varicella (chickenpox) vaccine, polio vaccine, and your yearly flu shot.
Also, our university partners in the UK have indicated that the National Health Service has a policy of immunizing for Meningitis “C” and recommend that students who have not been vaccinated make arrangements to have this done before leaving home.

**Safety in Scotland**

One main thing to remember about safety in Scotland is that they drive on the opposite side of the road, so **LOOK RIGHT!!** before crossing the street.

Information on crime, road safety, drug penalties, and terrorist activity in the UK is included in the State Department Consular Information Sheet at the end of this guide. Safety in and around your host university will be discussed during orientation in Scotland.

**Hiking**

Per the U.S. State Department, “Hiking in higher elevations can be treacherous. Several people die each year while hiking, particularly in Scotland, often due to sudden changes in weather. We encourage visitors, including experienced hikers, to discuss their intended routes with local residents familiar with the area and to adhere closely to recommendations.”

**Sexual Harassment and “Lad Culture” in the UK**

“Lad culture” has become a concern among British universities. In recent research, it was defined by participants as a “group or ‘pack’ mentality residing in activities such as sport and heavy alcohol consumption, and ‘banter’ which often sexist, misogynist and homophobic.” Although some respondents found it influenced their academic experience at university, lad culture is seen as particularly influential in the social side of university life. Some commentators have compared it to “bro culture” or frat culture in the United States viewing it as an imported phenomenon from the United States.

Many respondents reported sexist jokes and rape banter in their friendship groups that made them feel uncomfortable or pressure to engage in sexual relationships. Sexual harassment was common, and there were accounts of sexual violence. Harassment ranged from verbal harassment and catcalling to physical harassment and sexual molestation. Groping in nightclubs was viewed by some as a part of a normal night out. Excessive drinking is an often cited contributing factor and the university drinking culture is seen as one of the biggest obstacles to eliminating lad culture. Some women were also found to participate in the heavy drinking and crude behavior associated with lad culture and have been dubbed “ladettes.”

Undoubtedly, some UW-Eau Claire students have witnessed this type of behavior at UW-Eau Claire. However, it may be more difficult to speak up when you are in a new culture. You cannot change a culture but you can make smart choices about how to manage your interactions and reactions to lad culture:

- Ask your British friends, both male and female, how they think lad culture impacts university social life.
- Remove yourself from situations where you do not feel comfortable. Listen to your instincts.
- Drink in moderation if you choose to drink. CASE at UW-Eau Claire offers advice how to drink in moderation.
- Be careful about accepting drinks from people that you don’t know. In particular,
watch your drink when you are out at bars or clubs.

**Emergency Contacts**
Each Study-in-Scotland university has a designated adviser for students to contact. Numbers are listed on the Contact Information page of this guide. When traveling outside the framework of the academic program, you may not be able to contact the international adviser for help. If an emergency should arise while traveling, U.S. embassies and/or consulates can offer some assistance in the following ways:
- provide a list of local physicians and lawyers
- contact next of kin in event of emergency
- provide assistance during civil unrest or natural disaster
- contact relations on your behalf to request funds or guidance in an emergency

**911 Equivalent in the UK**
If you are in an emergency situation in the United Kingdom, you will need to know how to reach the local police, fire, or ambulance services. The local equivalent to the 911 emergency line **in the United Kingdom is 999**; **in Gibraltar, it is 112**. Save this number in your cell phone in case you need it to use it quickly.

The U.S. State Department also provides a list of [911 numbers abroad](https://travel.state.gov/content/travel/en/legal/visa-law0/visa-basics/911.html). Please note that in some countries there are different numbers for fire, police, and ambulance. Plan ahead and research numbers before you go.

**REQUIRED DOCUMENTS**
*Passport and additional visa information is included in your Study Abroad Handbook.*

**Visa**
A visa is official permission to temporarily reside in another country and is granted by the government of that country. You will find basic information about the current visa options for U.S. citizens for study in Scotland in the “Visa Information: UK” handout in the Learning Content section of your online study abroad account during the semester prior to departure. However, it is your responsibility to keep up-to-date about student visa requirements for Scotland, and if required, to apply for and receive a visa from a Scottish consulate or embassy in a timely manner.

Please read the “Visa” section of your Study Abroad Handbook for more information about what you should do to keep up-to-date on visa requirements.

**Visas for Travel to Other Countries**
If you plan to travel outside of the UK while abroad, verify visa requirements for each country you will visit by contacting the nearest consulate for that country, or your travel agency. Most Western European nations do not require US citizens to have a visa for tourist travel of less than three months, but you should always verify the requirement as entry requirements can change with little notice.
PACKING TIPS
In addition to the general packing information in the Study Abroad Handbook, you should know the following about Scotland.

Clothing
The weather in Scotland is often cool and wet, especially in the fall and winter. Many buildings are not centrally heated. Past participants suggest bringing clothing that you can wear, or remove, in layers.

Bring a few “dress-up” clothes for going out to restaurants or clubs. Some nightclubs will not let you in wearing jeans or tennis shoes.

A light and a heavy jacket are essential. One of these should be a raincoat with a warm lining. And don’t forget your umbrella!

What to Pack
Your Peer Adviser will provide a suggested packing list in the semester prior to departure.

Remember that you should not book your flight until your acceptance has been confirmed and the exact beginning and ending dates of the program have been confirmed by your host campus. However, this does not mean that you cannot look online and begin price comparisons.

You should plan to fly into either Glasgow International Airport (GLA) or Edinburgh International Airport (EDI). You can fly into Glasgow Prestwick Airport (PIK), but the cost of getting to Stirling will be much higher unless you are traveling with a group (see below.)

Immigration
At the airport in the United Kingdom, you will need to pass through immigration. See the “Visa Information: UK” handout in the Learning Content section of your online study abroad account for details on what documents to bring. Don't joke around at immigration or customs. Just answer the questions politely.

Getting to the University of Stirling
Stirling is located about an hour and 20-minute drive from Glasgow and a 45-minute drive from Edinburgh; both cities have international airports.

U of Stirling does not arrange a pick-up service from the airport. Instead, they recommend that you use the transport service “Stirling Direct” since it is the least expensive way to get to the university. Current prices are from:

- £18 per person from Edinburgh Airport
- £20 per person from Glasgow Airport
- £90 per vehicle from Prestwick Airport
For more information on airport collection, visit the U of Stirling website:  
http://www.stir.ac.uk/study-in-the-uk/airport-collection.

If you wish to book an airport collection with Stirling Direct, please do so through their website: www.stirlingdirect.org. **Please book at least 7 days in advance of your arrival in Scotland to ensure your place on the shuttle.**

**SETTLING IN**

*Orientation*

**Stirling:** You will have a one to two-day orientation program, including an introduction to the university and its facilities as well as a tour of the surrounding area.

*Housing*

**Stirling:** Study abroad and exchange students have the choice of two to three on-campus and one off-campus residence each year. Students apply for accommodation online and instructions about how to do this will be emailed to you in your after you have been offered admission to the University and accepted the offer.

Student accommodation is apartment-style living similar to Chancellor's Hall at UW-Eau Claire. Students live in apartments or chalets, where three to seven students have individual bedrooms but share living, kitchen, and bathroom space. Each room has a desk, lamp, chair, bed, bookshelf, storage space, and sink. A bedding pack is provided, but you need to provide your own towels, cooking and eating utensils. Find details at http://www.stir.ac.uk/campus-life/accommodation/visitingstudents/.

**Stirling- students with disabilities:** U of Stirling does have some accommodation that was specifically designed to be accessible for students with varying needs. For more information on what is available, please visit the Accommodation Students with Disabilities page. You are also encouraged to discuss any special needs with your study abroad coordinator, Cheryl Lochner-Wright, at lochnecb@uwec.edu.

**Meals**

**Self-Catering:** As noted previously, most halls at all campuses are self-catering, otherwise known as cooking for yourself. For those of you coming from traditional dorm life, this may be a bit different. In most kitchens, you can expect to find an electric kettle, fridge, oven, freezer, stove, and microwave. You will most likely need to buy some inexpensive pans and utensils.

Many of your kitchen mates will be from all around the world – be open to trying and sharing food with them!

**Stirling:** All accommodation at U of Stirling is self-catered. Students will need to provide their own cutlery, plates, cups, and other cooking utensils. There are a number of cafeterias and eateries run by campus catering. You can add funds to your U of Stirling student card if you like. Most students choose to cook for themselves and limit the amount they eat at the campus eateries as cooking is less expensive, and lots of social life in the halls centers around the kitchen. You can learn more the campus catering outlets at http://www.stir.ac.uk/campus-life-campus-facilities/catering/.
Cultural differences in food. Because tea is a more common drink than coffee, you'll find water kettles rather than coffee pots in most kitchens. When you go shopping, you'll find that eggs are not refrigerated. You'll find less beef and chicken, and more pork and lamb. Ketchup, peanut butter, and ranch dressing are hard to find and have a slightly different flavor. If you eat out, you'll find more Indian food and less Mexican food.

Common Scottish and English meals
- **Haggis**: a traditional Scottish savory dish containing sheep's organs (heart, liver and lungs) minced with onion, oatmeal, suet, spices, and salt; mixed with stock; and traditionally encased in the animal's stomach and simmered for approximately three hours. Most modern commercial haggis is prepared in a sausage casing rather than an actual stomach. For those of you who are not fans of organ meat, there is also vegetarian haggis.
- **Black Pudding**: a type of sausage made by cooking blood or dried blood with a filler until it is thick enough to congeal when cooled; often served at the traditional Scottish breakfast.
- **Square Sausage**: Lorne sausage known for its shape is often served with breakfast or on a roll.
- **Tablet**: basically sugar and butter; it is amazing.
- **Clotie Dumpling**: a traditional dessert pudding made with flour, breadcrumbs, dried fruit, sugar, spice, and milk.
- **Stovies**: A Scottish dish based on potatoes; recipes vary widely but the dish always contains potatoes and variously onions, carrots, other vegetables, roast beef, corned beef or other meat.
- **Fish and Chips**: fried fish served with fries. Depending on where in Scotland you are they will ask if you would like vinegar or salt or both. You will also find a variety of toppings people put on just chips such as doner or curry.
- **Shepherd's Pie**: lamb pie cooked in a casserole with a layer of toasted mashed potatoes.
- **Bangers and Mash**: sausages and mashed potatoes.
- **Yorkshire Pudding**: popover served alongside roast beef with gravy on top.
- **Cadbury Chocolate**: an absolute must.
- **Doner**: found at the kebab shops; similar to a Gyro.
- **Fried Milky Way/Mars Bars**: almost anything can be found fried; just check out the menu at the nearest fish and chips shop.

Laundry
Stirling: The University of Stirling has various laundry facilities located in A K Davidson Hall, Murray Hall, Alexander Court, Spittal Hill, John Forty’s Court, Thistle Chambers, Union Street development Stirling and in Polwarth House, central to the main residences complex. All have card operated washers and dryers. In the main laundry at Polwarth House, £4 buys a 12-point laundry card, which is swiped in the machines as they are used. Washes “cost” four points, and 20 minutes in the dryer “costs” two points, so each card holds the equivalent of three washes, six dries, or two of each.

Getting Involved
A great way to get involved in the community is to volunteer your time. Check with the study abroad office on your campus to see if any positions are available on campus or within your city. Otherwise, look into student groups that
participate in volunteer activities. Past students who chose to do this gained a lot from the experience. Not only do you get to meet people, you get to make a difference. However, please see the "Service Learning" information on page 10 of this guide as **volunteering in the UK will require a background check and Tier 4 Student Visa.**

Some students also attended a Scottish church on a regular basis. They really enjoyed doing this as they were able to meet and connect with a wide variety of people.

Each of the campuses offers a wide variety of student activities.

**Stirling:** Stirling University Students’ Association, or SUSA, helps students organize activities, from sport to cultural activities and more. SUSA also provides a framework within which students can organize clubs and societies which suit their interests. A list of clubs and societies can be found on the SUSA clubs and societies web page: [http://www.stirlingstudentsunion.com/](http://www.stirlingstudentsunion.com/).

The university is a great place for sport and offers excellent sporting facilities. Facilities include a large indoor sports hall, a nine-hole golf course, squash courts, 50-meter swimming pool, indoor and outdoor tennis courts, a fitness center (with a variety of equipment including free weights) and an athletics track.

You can also get involved with the International Society. It runs a variety of social events (including the famous Scottish ceilidh!), trips around Scotland and other opportunities to mix with people from the 80+ nationalities represented on campus. For more information, visit the Society's website: [http://www.stirlingstudentsunion.com/clubs/societies/societies/internationalsociety/](http://www.stirlingstudentsunion.com/clubs/societies/societies/internationalsociety/).

**COMMUNICATION**

*Information on accessing/forwarding your UW-Eau Claire email address and international calling through your computer is in your Study Abroad Handbook.*

**Time Difference**

Scotland is six hours ahead of Eau Claire. When it is 1:00 p.m. in the afternoon here, it is 7:00 p.m. in the evening there. Because of the time difference, you may wish to set up a specific calling time with people at home.

**Telephone Information**

From the U.S. to Scotland.: You must first dial 011, which is the international dialing code. Next, you must dial 44 to get Scotland, and then the rest of the number to reach a specific city and location.

From Scotland to the U.S.: Dial 001, the area code, and the number.

**Email**

Each of the universities provides email access, or you can access a web-based account via the Internet. If you bring a laptop, there will be places to use it on campus and in your housing arrangement. There are also various computer labs on campus. You will need to purchase a UK adapter for your computer if you bring one. Make sure that if you have a three prong computer plug that you purchase a two prong converter (to plug into your adapter) that turns into a three prong so that you can charge your computer.
Snail Mail
International airmail usually takes at least 7-10 business days. Make sure you do not send anything valuable through snail mail until you are sure of where your mail will end up and that it is in a secure place.

CULTURE NOTES
Where am I going? UK, Great Britain, or Scotland?
You are actually going to all three simultaneously. The United Kingdom is a country that consists of Great Britain and Northern Ireland. In fact, the official name of the country is “United Kingdom of Great Britain and Northern Ireland.”

Great Britain is the name of the island northwest of France and east of Ireland that consists of three somewhat autonomous regions: England, Wales and Scotland.

Therefore, Scotland is part of Great Britain, which is part of the United Kingdom. The UK includes England, Wales, Scotland, and Northern Ireland.

From:
http://geography.about.com/library/faq/blqzuk.htm

The Government
The United Kingdom is a constitutional monarchy and parliamentary democracy, with a queen and a parliament that has two houses: The House of Lords, with 574 life peers, 92 hereditary peers, and 26 bishops; and the House of Commons, which has 651 popularly elected members. Supreme legislative power is vested in parliament, which sits for five years unless dissolved sooner. The House of Lords was stripped of most of its power in 1911, and now its main function is to revise legislation. In November 1999, hundreds of hereditary peers were expelled in an effort to make the body more democratic. The executive power of the Crown is exercised by the cabinet, headed by the prime minister.

The current monarch and prime minister are:
Sovereign: Queen Elizabeth II (since 1952)
Prime Minister: Theresa May (since 2016)

England has existed as a unified entity since the 10th century; the union between England and Wales, began in 1284 with the Statute of Rhuddlan, which was not formalized until 1536 with an Act of Union. In another Act of Union in 1707, England and Scotland agreed to permanently join as Great Britain. The legislative union of Great Britain and Ireland was implemented in 1801, with the adoption of the name the United Kingdom of Great Britain and Ireland. The Anglo-Irish treaty of 1921 formalized a partition of Ireland; six northern Irish counties remained part of the United Kingdom as Northern Ireland and the current name of the country, the United Kingdom of Great Britain and Northern Ireland, was adopted in 1927.

http://www.infoplease.com/country/united-kingdom.html

Population
Population of the UK: 63,742,977 (2014 est.)
Nationality: British
Language: English (Note: the UK also has recognized regional languages: Scottish Gaelic, Welsh, and Cornish)
Religion: Christian 59.5%, Muslim 4.4%, Hindu 1.3%, other 2%, none 25.7%, unspecified 7.2% 
Ethnic groups: White 87.2%, black 3%, Indian 2.3%, Pakistani 1.9%, mixed 2%, other 3.7% 
(2011 estimated)

If you want to learn more about British culture, visit the following Web site:

TRAVEL WHILE ABROAD

Here is specific information about travel in the UK to supplement the Study Abroad Handbook.

If you plan to travel in England, Scotland or Wales, transportation by train, ferry, bus (coach) and plane are all HIGHLY recommended. When deciding whether to travel by train or air, remember this: they are often comparable in price, but train travel is considerably longer. For example, a train from Glasgow to London takes four hours versus a forty-minute flight. On the other hand, traveling by train allows you to see much of the countryside that you would miss if you fly. Also, train stations are usually closer to the city centers, while a taxi or bus ride might be needed if you fly.

Train
A Young Person’s RailCard gives you one-third off regular fare tickets. It pays for itself after three or four rail trips. There is also a special rail pass just for southwest England (which includes London and Oxford) that gives you a discount on train tickets. When you buy a ticket to London using the pass, the ticket may also be used as a subway pass around London for the entire day.

Bus
Scotland has a great bus system that can take you to many Scottish cities inexpensively. At www.megabus.co.uk, you can get a roundtrip bus ticket from Glasgow to Edinburgh for 3-4 pounds (roughly $7-9). If you're going further, a National Express Student Coach Card entitles you to one-third off all regular fare coach tickets.

Ferry
If you have time, you can also take a ferry from Scotland to various cities in Ireland/Wales/England. Past participants have said they really enjoyed the ferry experiences. See http://www.aferry.to/ferry-to-ireland-irish-ferries.htm for more information.

Air
Many past students have recommended Ryan Air as a helpful site with low-budget flights all around Europe: http://www.ryanair.com/en. Typically, Ryan Air flies into airports that are further outside the city so you may need to spend more on taxis, buses, or trains to get into town.

Comments from Past Study in Scotland Participants:

My study abroad experience changed my perspectives on how to conduct my day to day life and taught me that there is always something new to be learned." - Claire, Aberdeen Spring 2016

“It's been eye-opening! I’ve gotten to hear so many stories from people around the world and through my travels. I've met people who have changed my perspectives on life. Since coming here my level of independence has soared! I had never planned my own trips before and this semester I've become a lot more confident in arranging my travels and venturing to countries where I'm not able to speak their native tongue!” Emily M., Aberdeen Fall 2013

“Studying abroad is the best decision I've ever made and strongly encourage it. I have had the time of my life and made lifelong friendships along the way. It was especially fun to learn about other students’ home lives and compare them to how we do things and grow up in the United States. Local students were also very interested in my life at Eau Claire and we had fun sharing stories. I feel that I have made the most of my experience as much as possible, no regrets.” Elizabeth A., Stirling Spring 2013

The study abroad experience is one that changed my life. I have been opened up to a whole new culture and have learned more about myself and my values than I have back at Eau Claire. – Nick, Stirling, Spring 2013

[Participating in the program] has helped me realize that going to college is about much more than just getting a degree to get a better job. This semester opened my eyes to a world outside the US and offered me the chance to meet people from all over the world and learn their point of view on so many different topics - both school-related and not. This encouraged more curiosity in subjects rather than just attempting to finish the assigned homework. Glasgow participant, Spring 15

I learned a lot about Scottish culture and in doing so discovered many aspect of U.S. culture that I had never considered. – Jessica, Glasgow, Spring 2013

Updated 1/2017, clw
